3 Take action: from #YOUTH4CLIMATE to world food day

From **September 28th to 30th 2021** the city of Milano will host the conference raising youth voices on the climate crisis "**Youth4Climate: Driving Ambition**": young people from all over the world will be involved in a full schedule of meetings and events and will be called to dialogue with institutions to design together a path of fair and sustainable development, to guarantee a better future for our cities and the planet.

There will be a number of activities organised by our **national** and **international** partners that you may participate in – both **live** and **virtually** – in order to keep our movement's wave going. There is only one goal: to demonstrate that a more sustainable city is possible through our best practices! Follow the wave that will be guiding us from the **Youth4Climate** events up until **World Food Day** on **October 16th**.

FEED YOUR FUTURE! The Wavers' Hub for the Climate

Food Wave will be bringing another event to life during this year's Pre-COP days: **'Feed Your Future! – The Wavers' Hub for Climate.'** A full three-day event featuring talks, workshops, screenings and artistic performances on the theme of food and climate change. The event will take place from **1-3 October 2021** in **Space B** of **BASE Milan** cultural centre. Participate in the event and you'll get to talk and exchange ideas with national **experts, organisations, and institutions** but also get in touch with the experiences of young **people** that are already committed to bringing change in their cities.. Also, there'll be **artistic performances, screenings, and concerts** that will innovatively explore the relationship between the **food system** and **climate change** through the use of different languages and perspectives!

Food Wave's ***Feed Your Future!*** will be the hub that **local and international communities** will use to communicate, interact and access important information. Get active: from Milan, Food Wave's ripples will spread across the **16 participating countries**, including youth in the conversation for change that goes beyond territorial borders!

The event program

5

“ASK FOR THE PLANET” challenge

Food Wave's goal is to build a new alliance between cities, youths, and local communities in order to create sustainable, inclusive, and greener urban spaces. This year's Youth COP and Pre-COP offers us a great opportunity: to include our message into the agendas of politicians and institutions, and draw their attention to the actions we need to take for the ecological transition of our cities. Together, let's make a common climate appeal by participating in the Ask For Planet challenge!

The instructions are simple: create a 60-second video explaining what you need most to make this change happen and address your appeal directly to institutions and politicians. Alternatively, you may write your proposal/request on a cardboard or banner and take a photo.

> Please use English in your video or written message.

All done? Now click on the [\[link\]](#), complete the form and send your video or photo. Your message will be share on Food Wave social media and projected inside the 'Feed Your Future!' hub during the events, from 1 to 3 October.

Campaign timeline

28/09 - 30/09: Trailer

Let's make some noise!
Share the cards on your social media to invite your friends to join all the events of **Feed Your Future!** and apply for the **Ask For Planet challenge**.

1/10 - 3/10: Feed Your Future!

These are our days!
We're waiting for you in Milan: participate in the event, take a photo, or create stories and videos during the programme's activities. If you're unable to join us, follow the events on Food Wave's social media networks, comment, and share!

4/10 - 16/10: Follow up: road to World Food Day

Follow Food Wave's social media channels: you'll find all the highlights of the 'Feed Your Future!' event, as well as initiatives dedicated to World Food Day.

Social cards

Facebook, Instagram and IG stories

Use these social cards on your social media channels and help give the event a voice! Here's a short text you can use - if you want - (complete with hashtag) when you publish Food Wave's social media cards.
