

FOOD WAVE - Empowering Urban Youth for Climate Action
Sub-granting Scheme
Call for proposals – 2nd Round – 2nd Opening
DEADLINE POSTPONED

1. Introduction and background

Eating habits and food systems at local and global level have a significant impact on climate change. While worldwide food production is responsible for a third of global greenhouse gas (GHC) emissions, it is at the same time affected by climate change. In addition, more than a third of the global food production per year (40% at European level) goes wasted, producing significant impact on climate, as well as on the environment. Therefore, changing the food system (production, distribution, and consumption patterns) is a key aspect to face the climate change issues because of its cross-cutting and capillary nature, both in the economic system and in daily life.

“Food Wave - Empowering Urban Youth for Climate Action” is a project co-funded by the European Commission under the Development Education and Awareness Raising Programme (Reference number: EuropeAid/160048/DH/ACT/Multi). It aims at creating awareness on **sustainable ways to consume and produce food for climate change mitigation and activate young people in their cities**, in order to enable them to influence institutional decisions, so they can lead us to a sustainable global food system by 2030. The project is led by the [City of Milan](#), and co-implemented by [ActionAid Italy](#), [Fondazione ACRA](#), [Mani Tese](#) and 25 project partners in 16 countries¹, including the [European Association for Local Democracy \(ALDA\)](#)².

In order to contribute to this wider goal, the project aims at committing young people in 16 states (15 EU Member States and Brazil) to change their food consumption behavior and to actively promote the shift towards ecological and inclusive urban food systems, contributing to the EU's efforts to mitigate and adapt to climate change. The project addresses the food-climate nexus in an integrated manner, with reference to the issues of social inclusion and integration of vulnerable and disadvantaged groups. These values are in fact the pillars of the project which has among its objectives the reinforcement of a Global citizenship spirit.

1.1 The DEAR Programme

The project is part of the Programme of the European Commission [DEAR – Development Education and Awareness Raising](#), which aims to support and involve European public opinion on social, economic, and environmental issues at a global level. The DEAR Programme supports projects that engage the European Union public in worldwide issues of social, economic, and environmental development.

2. The call for proposals

Within this framework, the Project, under the coordination of **ALDA**, with the collaboration of the project partners and in synergy with the [Milan Urban Food Policy Pact \(MUFPP\)](#), established a sub-granting scheme that will contribute to the Food Wave Project overall objective, **supporting grass-root initiatives in the field of climate-friendly food consumption behaviors**. The sub-grants shall focus on actions that can produce specific results that will stand as examples and inspiration on how to generate constructive and result-oriented activities.

3. Size of the grants

The overall budget amount for this activity sums up to 80.000 EUR. The contribution from the sub-granting scheme will cover **75% of the total eligible costs of the total budget for the activity. The Beneficiary must provide 25% of co-financing.**

The remaining 25% of the action (a minimum of 1.250 Eur) will be provided by each applicant as co-funding. The financing and co-financing % always remain the same even if the overall cost of the proposed action is lower than 5.000 EUR.
